Thule Mounting Bracket

www.thule.com

EN

Weight capacity of tent in use with people inside the tent (static weight) can exceed the dynamic (driving) weight capacity. The tent's static weight capacity is 300 kg/ 600 lbs. Recommended roof rack weight capacities can be found on Thule.com. Check your vehicle instruction booklet for information on recommended roof load. Thule only recommends Thule roof rack systems for Thule rooftop tents. Do not use Thule tents with a vehicle's factory installed crossbars, they are often too flexible. For other brand roof rack applications check vehicle and roof rack owner's manual for maximum weight capacity. Thule cannot guarantee any compatibility of other roof racks and/or their load capabilities.

FR

La capacité utile de la tente en utilisation avec des personnes à l'intérieur de celle-ci (poids statique) peut excéder la capacité utile dynamique (en déplacement). Le poids statique de la tente est de 300 kg/600 lbs. La charge utile des barres de toit recommandée est précisée sur Thule.com. Lisez le manuel d'instructions de votre véhicule pour obtenir des informations sur la charge en toiture recommandée. Thule recommande uniquement les systèmes de barres de toit Thule pour tentes de toit Thule. N'utilisez pas les tentes Thule avec les barres de toit de série d'un véhicule qui manquent souvent de rigidité. Pour les autres marques de barres de toit, consultez le manuel d'instructions du véhicule et le manuel du fabricant des barres de toit pour connaître la charge utile maximale. Thule ne garantit aucune compatibilité avec les barres de toit des autres fabricants ni leur charge utile.

DE

La capacidad de peso de la tienda en uso con personas dentro de la misma (peso estático) puede superar la capacidad de peso dinámico (conducción). La capacidad de peso estático de la tienda es de 300 kg/ 600 libras. En Thule.com se encuentran las capacidades de peso recomendadas de las barras de techo. Consulta el folleto de instrucciones de tu vehículo para obtener información sobre la carga de techo recomendada. Thule solo recomienda los sistemas de barras de techo Thule para las tiendas de techo Thule. No utilices las tiendas Thule con las barras transversales de un vehículo instaladas de fábrica, ya que a menudo son demasiado flexibles. Para su uso con barras de techo de otras marcas, consulta el manual del vehículo y del fabricante de las barras de techo para conocer la capacidad de peso máxima. Thule no puede garantizar la compatibilidad de otras barras de techo ni su capacidad de carga.

ES

Die Lastaufnahme des Zelts mit Personenbesetzung (statische Last) kann die dynamische Last (in Fahrt) überschreiten. Die statische Last des Zelts beträgt 300 kg. Für die empfohlene Lastaufnahme von für Dachträgern, siehe Thule.com. Die Betriebsanleitung des Fahrzeugs bietet weitere Angaben zur empfohlenen Dachlast. Thule empfiehlt für Dachzelte von Thule ausschließlich Dachträgersysteme von Thule. Zelte von Thule nicht mit werksseitig montierten Dachträgern einsetzen, die oft zu biegsam sind. Bei Dachträgern anderer Marken das Benutzerhandbuch des Fahrzeugs und des Dachträgers auf jeweilige maximale Lastaufnahme überprüfen. Thule garantiert keine Kompatibilität mit anderen Dachträgern und/oder deren Lastaufnahme.

DO NOT use Thule rooftop tents with vehicles with glass roofs. Cars with sunroofs may be used but the opening function should not be used.

EN

Benutzen Sie Thule Zelte NICHT auf Fahrzeugen mit Glasdächern. Der Einsatz auf Autos mit Schiebedach ist möglich, die Öffnungsfunktion darf jedoch nicht genutzt werden.

DE

N'utilisez PAS de tentes Thule avec des véhicules avec un toit vitré. Il est possible d'utiliser la tente sur un véhicule doté d'un toit ouvrant sans ouvrir ce dernier.

FR

NO utilice tiendas Thule con cualquier tipo de vehículo con techo de cristal. Se pueden usar automóviles con techos corredizos, pero no se debe usar la función de abertura.

ES

Do not use Thule Tents with any type of Thule Clamp or Thule Edge style roof racks as the high static weight may cause damage to your car's roof.

EN

NO utilices tiendas Thule Tents con cualquier tipo de barra de techo de estilo Thule Clamp o Thule Edge, ya que el elevado peso estático podría dañar el techo de tu vehículo.

DE

Ne pas utiliser les Thule Tents avec n'importe quel type de barres de toit Thule Clamp ou Thule Edge, car le poids statique élevé pourrait endommager le toit de votre voiture.

FR

Thule Tents nicht mit Dachträgern des Typs Thule Clamp oder Thule Edge verwenden, denn die hohe statische Last kann das Fahrzeugdach beschädigen.

ES

When mounting Thule rooftop tents to vehicles with raised side rails:

EN

Beachten Sie Folgendes bei der Montage von Thule Zelten auf Fahrzeugen mit erhöhten Seitenschienen:

DE

- A** Make sure raised rails are structurally supported.
- B** Make sure crossbars are positioned next to supports of raised rails.

- A** Versichern Sie sich, dass die erhöhten Seitenschienen strukturell gestützt sind.
- B** Versichern Sie sich, dass die Querstreben neben den Stützen der erhöhten Seitenschienen positioniert sind.

Lors du montage d'une tente sur un véhicule doté de rails latéraux surélevés:

FR

Al montar tiendas Thule en vehículos con rieles laterales elevados:

ES

- A** Assurez-vous que les rails sont soutenus structurellement.
- B** Assurez-vous que les barres transversales sont maintenues en place à côté des rails surélevés.

- A** Asegúrese de que los rieles elevados cuenten con un soporte estructural.
- B** Asegúrese de que las barras transversales estén colocadas junto a los soportes de los rieles elevados.
